Photographic art is our passion!*

## **Donation for Live Auction at Corvettes at Carlisle 2020**

### **Light Painting of Briggs Cunningham #3 1960 Corvette**

Own a piece of Corvette History! Jerry Keefer, a world renowned Automotive Fine Artist, is donating one of his Light Paintings of the Briggs Cunningham #3 1960 Corvette that won its class at the 24 Hours at Le Mans in 1960.

Jerry first heard the story of #3 in 2018 when Lance Miller, current owner of #3, was honored at the AACA Museum's Night at the Museum. The story of this 'vette and its history thought the years intrigued Jerry and he began to craft his vision of the finished art. Two years in the making and the vision has come to fruition with a finished masterpiece like none other.

Jerry Keefer's Light Paintings are a unique and highly complex method of photography where he uses his proprietary techniques to create a series of images of the subject that are then merged into a single photograph that depicts the final image in a way not possible with any other photography technique or style.

Jerry is one of a very few photographers worldwide that have perfect the art of Light Painting. His work is highly acclaimed by his clients and in the photography community. In fact, his work is currently on display in two automotive museums.

You can view the finished art on display at Jerry's booth across from Chip's Choice Corvettes, Building T, Booth 10 and 11.

Value: \$2000
